Presentation of the First Issue of IJSRA in 2017

GONZALO LINARES MATÁS*

gonzalo.linaresmatas@st-hughs.ox.ac.uk

Executive Editor, International Journal of Student Research in Archaeology
St. Hugh's College, University of Oxford

I am very excited to present you the contents of our first issue this year.

Conference Reviews

The 2016 edition of the American Association of Physical Anthropologists took place in Atlanta (Georgia, USA), in April 2016.

Book Reviews

Critical thinking when reading for assignments is a key dimension of the student learning experience. Offering the possibility of conducting book reviews for IJSRA

* * *

As part of our constant efforts to reach as wide an audience as possible, we are always looking for people with diverse research interests to join our international team. If you are committed to improve the presence of excellent student scholarship in archaeology through our free, open-access, not-for-profit publication, please do get in touch!

* Gonzalo Linares Matás is a third-year undergraduate student reading the BA Archaeology & Anthropology at St Hugh's College, University of Oxford (UK). He was the former President of the Oxford University Archaeology Society (Michaelmas 2015), and he has recently been invited to join the WAC (World Archaeology Congress) Student Committee. He is particularly interested in the socio-political contexts of heritage management and ownership, contemporary archaeological theory, and the histories of the academic disciplines of archaeology and anthropology as practical modes of inquiry. He is doing his undergraduate dissertation on the socio-economic dimensions of early bone technology, focusing on the late Early Pleistocene assemblage at the site of Cueva Negra del Estrecho del Río Quípar (Murcia, Spain). He is also very interested in transforming the academic publishing landscape.
